[redacted] At one point [redacted] reminded the members that some of the issues being raised were operational in nature and could not be answered by those present. 25X1

7. A number of questions required additional research for the record. Rep. Byron asked about the Soviet presence in Antarctica--and a copy of the response has been appended to the transcript. Congressman Kasich (R., OH) expressed concern with Soviet ASAT testing and requested an unclassified letter from the Agency outlining our concerns. Kasich indicated that the fact that the Soviets had not halted ASAT development was politically significant and we were perhaps not doing enough to broadcast this fact.

8. The briefing lasted approximately two hours and there were no major substantive or logistical problems.
